ABOUT US

Oklahoma State Fair

History

October 5, 1907, was a historic day in the young life of the frontier town of Oklahoma City. All attention that day was focused on the opening ceremony of a new institution located a mile east of downtown – the Oklahoma State Fair. From those humble beginnings in 1907, the Oklahoma State Fair has grown to become one of the premier State Fairs in the nation. We are proud that our family event has been a part of the Oklahoma landscape for more than 100 years – we are looking forward to amusing and entertaining Fairgoers for many more.

Mission

Oklahoma State Fair, Inc is a 501(c)(3) not-for-profit corporation that serves the people of Oklahoma and is dedicated to continuing the organization's heritage of education, entertainment, and economic development through the operation of the OKC Fairgrounds and the annual Oklahoma State Fair.

ANIMAL WELFARE POLICY

OSF is committed to the humane treatment of all animals exhibited. Every possible precaution is taken to ensure the animals' safety and wellbeing. Any exhibitor found using unethical practices or mistreating an animal at the OSF will be immediately removed from the premises and reported to the proper authorities. All privileges will be withdrawn, attraction fees will be prorated, and premiums will not be awarded.

ANIMAL EXHIBITS, SHOWS AND COMPETITIONS

It is the responsibility of the owner/exhibitor/handler/agent for each animal being brought to OKCF to be aware of and adhere to the most current rules and regulations regarding animal transportation, disease control, vaccinations, and health documentation requirement, in accordance with the Oklahoma Department of Agriculture, Food and Forestry, Animal Industry Services. For the most current information, call 405-522-6141 or access the Animal Industry State Veterinarian – ODAFF (ok.gov) and scroll down to the section for Animal Movement and Importation.

Any animal not cleaned or fitted to show as a true representative of the breed it represents shall be disqualified, and the judges will not award premiums on such animal. Exhibitors are requested to see that their attendants are neatly and appropriately dressed when their animals enter the show ring. Herdspersons are requested to present an attractive and appealing barn exhibit(s), by keeping their stall areas neat and clean, keeping the spectator walkways clear of all straw, feed, etc., refraining from cooking in the barns, keeping audio equipment at a low volume, following any fire and life-safety rules, and maintaining positive behavior at all times.

- A. **Summary of Program:** Exhibitors show animals for many reasons. The exhibition provides education to the public about livestock and farm animals, as well as the overall agriculture industry. Competition in the show ring provides a forum for comparison of livestock animals, based on selected or desired characteristics and genetics. The results contribute to breed and overall species improvement. These selected characteristics reflect in the market and usually follow consumer demand for a certain type of product, example: leaner meat. The Fair also provides advertisement for the breeders and owners of the animals. The 4-H and FFA programs and other junior organizations, teach valuable skills to youth, such as, finance management, responsibility, decision making and leadership.
- B. **Education:** The OSF has several educational exhibits and programs designed to educate, entertain, and inform the public about livestock and agriculture. The Fair utilizes judging commentators during the livestock shows to involve and inform the public about what is taking place in the show ring. Commentators cover what the judge is looking for in the animals, judging terminology (or "reasons"), as well as fun and educational information about the judged animals. The junior livestock exhibitors display educational exhibits in the livestock area during the Fair. The Fair has a special livestock exhibit area designed to provide species diversity and special education.
- C. **Livestock Exhibits**
 1. Exhibitor Guidelines
 - a) The Fair expects exhibitors to be knowledgeable about exhibit rules, about their projects and always to be prepared to answer questions. The exhibitor's role is that of an ambassador.
 - b) Exhibitors should learn additional details about animals and their roles in society. For example: it is fun and interesting to share by-product uses and other facts with the public. The Fair encourages educational exhibits in barns.
 - c) The Fair expects the exhibitors to cooperate with the AgriBusiness department, assistants, barn crews, the Fair management, and any appointed volunteers. The Fair also expects good sportsmanship, conduct and open communication.
 - d) Notify the AgriBusiness department if there is a confrontation with animal activists, or if there is someone approaching exhibitors and asking questions that make the exhibitors uneasy. Also notify the AgriBusiness department if someone who is unfamiliar or looks suspicious is taking photographs or video footage of the animals.
 2. Livestock Exhibit Guidelines
 - a) Keep the needs of the animals as the number one priority with regard to the following:
 - Food and water are clean and fresh.
 - Stalls are clean, with fresh bedding, and free of debris and waste.
 - Animals are clean and well groomed.
 - Transportation is safe and clean. Use care when loading and unloading.
 - Stalls have enough space to prevent crowding, fighting or discomfort.

- Animals are tied in the stalls with enough slack in the rope so they may lie down.
 - Use proper grooming techniques and equipment when preparing the animals for showing, to cause the least amount of discomfort to the animal.
 - The management will not tolerate any practices deemed inappropriate, unethical, or inhumane. Report any sick animal immediately to the proper authority who may suggest that the exhibitor contact a veterinarian.
- b) Feed shall be appropriate for the animal's age, weight, and species. Exhibitors should read all feed labels for appropriate use and portions. Adhere to all proper withdrawal times if using medicated feeds. Follow the requirements of the Food and Drug Administration (FDA) dosages and withdrawal times of drugs, *see Drug Residue Policy*. The Fair prohibits any unnatural, inhumane weight control prior to weigh-in.
 - c) Exhibitors should know the proper use of all equipment and exhibit safety awareness. This includes removing equipment from walkways, so it is not a hazard to people or animals. Tack areas, stalls, pens, and cages shall be neat and clean, with equipment put away in tack boxes or stored out of the way. Exhibitors shall use all equipment for approved and legal uses only.

EQUINE SHOWS AND COMPETITIONS

USDA AND APHIS (Animal and Plant Health Inspection Services), under the Horse Protection Act, which prohibits making a horse sore to enhance its performance, regulate horse shows. OSF also regulates horse shows regarding prohibited substances and the drugging of horses. USEF members and affiliated shows are subject to the rules and industry review program administered by the United States Equestrian Federation. Shows may also be subject to standards set by the individual breed associations, when and if applicable.

ANIMAL ATTRACTIONS AND EDUCATIONAL EXHIBITS

Fair management contracts and supervises animal attraction and educational exhibits. Both animal attractions and educational exhibits are required to provide educational material about their animals and their care to the public. Fair management encourages interaction with the public. This may be a criterion for issuing a contract.

Prior to opening to the public, a Fair designated veterinarian may inspect each animal exhibit. The veterinarian may also make periodic checks throughout the Fair. Each animal exhibit will designate a representative to be responsible and to be available during the Fair operating hours to answer questions, talk to the media or respond to an emergency.

- A. General guidelines for care
 - 1) Exhibit staff shall be available at all times. Signs will be posted informing the public of acceptable behavior in any petting facility.
 - 2) The staff should be familiar with basic animal husbandry practices.
 - 3) Keep animals groomed and clean at **all** times. Keep feed and water receptacles clean and free of debris. The exhibitor will clean animal stalls or pens daily. Properly dispose manure and used bedding in the appropriate receptacles or areas. Replace old bedding with fresh material.
 - 4) Alternate and give rest periods to the animals especially during hot weather. The resting pens and working area shall have shade with proper ventilation.
 - 5) Feed animals a nutritionally balanced diet as appropriate and with consideration to the animal's age, weight, and species. Water regularly when working and have clean water available in resting pens.
 - 6) The facility operator should make an effort to control flies in the exhibit and resting areas. Proper and prompt disposal of manure and used bedding is beneficial to this effort.
 - 7) Exhibitors shall use all equipment for approved and legal uses only. The management will not tolerate any practices deemed inappropriate, unethical, or inhumane.
 - 8) Report any sick or injured animal immediately to Fair management, who may suggest that the exhibitor contact a veterinarian.
 - 9) All animals are required to have a current, within 30 days, certificate of veterinary inspection. Many species are required to have negative tests against certain diseases. It is the responsibility of the exhibitor to contact the Oklahoma Department of Agriculture, Food and Forestry at 405-522-6141 or <http://ag.ok.gov> to make sure all required testing has been performed.

- B. Animal Petting Facilities

The design of an animal petting facility should help educate the public about different types of animals and animal care while regarding the animals' basic needs, including time away from the public. It should also provide the rare opportunity for contact and interaction with animals. Petting zoos may feature exotic animals not typically raised on farms.

- C. Pony Rides
 - 1) The ponies should have a pad or cushioned surface such as lawn or shavings to prevent ponies from walking on the ground or asphalt for extended periods.
 - 2) The pony ride should be a safe site, away from potential, unexpected noises, and sudden movements.
 - 3) Alternate the ponies to allow for reasonable rest periods.
 - 4) Water the ponies regularly.
 - 5) Do not expose the ponies to sun for extended periods without breaks for rest, shade, and water.
 - 6) All equine are required to have a current Certificate of Veterinary Inspection (within 30 days) and a current negative Equine Infectious Anemia test (within 12 months).
- D. Pig Races
 - 1) Pig races provide fast-paced family entertainment and crowd interaction. The USDA regulates pig races and requires an exhibitor license for performing animals. Oklahoma Department of Agriculture, Food and Forestry requires certificates of veterinary inspection, and negative tests for brucellosis and pseudorabies for pigs to enter the state. The owner/operator of the pig races may need to produce current, and correct, copies of all CVIs and results of blood tests as requested by OSF management, or in compliance with their contract. The owner/operator of the pig races may need to produce current, and correct, copies of all licenses as regulated by the USDA. Operator should maintain itinerary or schedule of OSF dates to document past and future exhibitions. Pig races shall follow the general policies outlined in this manual, as well as the appropriate feed for the piglet's age.
- E. Other Animal Exhibits (not previously listed)
 - 1) It is up to the exhibitor of animal attractions including: any owner exhibiting animals doing tricks or shows; carnivals and concessionaires who exhibit regulated animals; anyone who uses regulated animals to promote or advertise goods and services; animals used to promote photographs or photography; and anyone exhibiting farm animals for nonagricultural purposes to have knowledge of and obtain in a timely manner any required licenses.

ANIMAL CARE POLICY DISCIPLINE AND VIOLATION NOTICE

- A. Fair Management relies on staff members, volunteers, exhibitors, and the public to report any situations that may be potential policy violations.
- B. Fair Management will investigate and determine the severity of all complaints and concerns.
- C. If there is a violation of the Animal Welfare Policy, the exhibitor will receive a verbal warning and the steps needed to correct the violation.
- D. With a second violation, the exhibitor will receive a written violation notice and Fair Management may call the Humane Society or veterinarian, at the exhibitor's expense, depending on the severity of the violation. The removal of animals and/or exhibitor from OKCF may become necessary.
- E. A record of the verbal violation warning, and copies of the violation notices will become part of the exhibitor's file. Fair Management will consider these before issuing another contract.
- F. Any other public or staff complaint filed will become part of the exhibitor's file. Exhibitor will receive copies.
- G. Fair Management reserves the right to disqualify any competitive exhibitors in violation of the animal care policy from any awards and premiums.

SHOW RING CODE OF ETHICS

Believing it is in the best interest of all livestock breeders to maintain a reputation of integrity and to continue to present a wholesome and progressive image in the show ring, the following list of practices are considered unacceptable in the presentation of livestock. The use of such practices or procedures is, therefore, considered a violation of the rules and regulations governing the OSF.

The following list of practices are considered unacceptable in the presentation of livestock:

1. Misrepresenting the age of the animal for the class in which it is shown.
2. Treating or massaging any part of the body internally or externally with an irritant, counter-irritant or other substance to temporarily straighten a weak back or loin or to produce unnatural animation.
3. Minimizing the effects of crampiness by feeding or injecting drugs, depressants or applying packs, or using any artificial contrivance or therapeutic treatment exempting normal exercise.
4. Striking the animal to cause swelling.
5. Surgery or other procedure performed to change the natural process of growth, maturation, contour, or appearance of any animal, to include teeth, is prohibited. Not included is removal of teats or horns, clipping and dressing of hair, and trimming of hooves.
6. Insertion of foreign material under the skin.
7. Any attempt to change natural color of an animal, either purebred or crossbred, by changing the color or adding false hair, fleece or skin at any point, spot, or area of the animal's body.
8. The use of alcoholic beverages in the feed or administered as a drench.
9. The practice of artificial filling by pumping or any other device is prohibited.
10. Administration of a drug, of any kind or description, internally or externally, prior to entering the show ring, except for treating a recognized disease or injury and for tranquilizing bulls that may otherwise be dangerous or females in heat. For the purpose of these rules, the term "legal drug" shall mean any substance, the sale, possession or use of which is controlled by license under federal, state, or local laws or regulations and any substance commonly used by the medical or veterinary professions. The use of any chemical and/or compound that is not approved by the FDA for use in meat producing animals and the illegal use of approved chemicals and/or compounds are prohibited. All animals shall be subject to tests for foreign substances that exceed the acceptable levels established by the USDA, FDA, or EPA. A positive test will result in disqualification, forfeiture of any premiums and/or awards, and will exclude the exhibitor from future competition at the OSF. Licensed veterinarians will administer all medications only.
11. Balancing the udder by any abnormal means including the use of a mechanical contrivance or injection of fluid or drugs. Setting the teats and/or occluding, sealing the ends, with a mechanical contrivance or with the use of a chemical preparation. Treating or massaging the udder or its attachments with an irritant or counterirritant. The use of common products such as fly spray, ointment, or liniment in excess to the extent that it is irritating is included as an irritant unless required to reduce edema at the time of calving.
12. Criticizing or interfering with the judge, or other exhibitors, breed representatives or show officials before, during or after the event may result in an individual or group being expelled, placed on probation, declared ineligible, or barred from exhibiting at the event.

Any violation of the rules and regulations designed for the individual shows or the show ring code of ethics may result in forfeiture of all premiums and awards, disqualification, expulsion or probation of the exhibitor, organized group, individual or livestock involved. Probation, disqualification, expulsion, or other disciplinary action of OSF management will be final. Such action will require application for readmission under such terms as OSF management may prescribe before the group or individual is allowed to exhibit at future events.

The OSF is a member of the following show support organizations: North American Livestock Show and Rodeo Managers Association; and International Association of Fairs and Expositions. Violations at this show may affect the eligibility of the individual, group or sponsoring organization from participation at other shows that are also members of these organizations. The names of anyone in violation will be released to the other Fairs and Expositions.

2. The American Angus Association (hereinafter referred to as AAA) may contribute to premium support offered in individual classes for junior Angus heifers according to number of head shown in the previous year. The premium assistance shall be included in the premium payments distributed by the Oklahoma State Fair to the exhibitors.
3. A minimum of 15 head must be shown in the junior Angus heifer classes to be potentially eligible for the AAA to assist with premium support. The show is not required to have all classes to be eligible for premiums.
4. Separate classes for bred and owned heifers may be held if the size of the show merits a separate class.
5. To be eligible for AAA premium support, the entries must be recorded in the sole name of the junior exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. Any contribution by the AAA for premium support will be included in the total premiums listed in each class and paid by the Oklahoma State Fair.
6. Premiums from the AAA are paid only to the recorded owner(s) of registered Angus cattle and only if the registration number is a part of the show report provided to the AAA. Therefore, all cattle should be registered at the time of entry to make certain they are eligible for the Association's portion of the premiums. The AAA does not contribute to premiums for championship classes. The AAA will only count an animal one time toward the total count for possible premium support.
7. Exhibitors must have the original registration certificate on each animal available for inspection at the show. Electronically stored registration certificates are NOT accepted – only the original certificates issued by the American Angus Association. Any animal, upon check-in, that does not have a legible, permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-tattooed and rechecked at the show.

9. Only one person at a time shall lead animals into the show ring.
10. Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2 Association Rules. The rules relating directly with the exhibition of Angus cattle are included in Part 2: Association Rules; Section 8 series. These rules can be found at www.angus.org.
11. Any product administered internally or used externally to alter the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), use of graphite, powders, hemp, or other similar substances externally, and steroids, growth stimulants or artificial filling internally. Any animal found to be in violation will be barred from showing. The exhibition of cattle displaying false hair will not be allowed, with the exception of false tail switches.
12. At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member-owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a “white towel” or “white glove” test. No aerosol cans or other pressurized containers will be allowed in designated makeup areas.
13. All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association rules and for other testing as required by the individual show.
14. Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.
15. **BRED AND OWNED CLASSES (classes #20 & 35):** Pre-entry required by stated deadlines. Exhibitor and animal must be duly entered and shown in an appropriate individual animal class. ADDITIONAL RULES

1. A minimum of 50 head must be shown in the open class division to receive American Angus Association premium participation for the following year.
2. Premiums from the association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The AAA does not contribute to premiums for championship classes. Exhibitors must have the original registration certificate on each animal available for inspection at the show. Electronically stored registration certificates are **NOT** accepted – only the original certificates issued by the American Angus Association. Any animal, upon check-in, that does not have a legible tattoo corresponding to its registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible tattoo, animals cannot be re-tattooed and rechecked at the show.
3. Any female shown with calf at side must be the cow's most recent natural calf and the calf must be registered by show date and have the original registration certificate at check-in.
4. Only one person at a time shall lead animals into the show ring.
5. Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2; Association Rules; Section 8 Series. These rules are found at www.angus.org.
6. Any product administered internally or used externally to alter the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), use of graphite, powders, hemp, or other similar substances externally and steroids, growth stimulants or artificially filling internally. Any animal found to be in violation would be barred from showing. The exhibition of cattle displaying false hair will not be allowed, with the exception of false tail switches.
7. At any show for which the American Angus Association appropriates funds towards the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests to monitor this prohibition, including

but not limited to: a “white towel” or “white glove” test. No aerosol cans or other pressurized containers will be allowed in the designated make up areas.

8. All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association rules and for other testing as required by the individual show.
9. Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.
10. **Breeders six-head:** the exhibitor of the breeders six-head must be breeder and first owner, identified by the same member code for the animals exhibited. Cattle owned by other exhibitors may be included, provided the exhibitor of the breeders six-head is the breeder and first owner of the included animal(s). Animals must be exhibited in individual classes. Cattle bred and owned by a junior member(s) may be included if the exhibitor of the breeders six-head is an individual or married couple and is the parent or legal guardian of the junior member(s).

Refer to the Rules and Regulations sections for important information including animal health requirements, liability agreement, additional fees, admissions, deadlines, etc.

Breeding cattle shows will be NO FIT, meaning blow and show only. No paint or glue allowed.

ADDITIONAL RULES

1. Animals must be registered in the American Brahman Breeders' Association (ABBA) to be eligible to compete in association-sponsored shows. The registration certificates for each entry must be available for presentation to the superintendent or manager of the show at the time entries are verified prior to judging.
2. The registration number and animal identification number (number branded on animal) of each animal must be entered in an individual class, the sire of each get-of-sire and the dam of each produce-of-dam entry must be listed on the entry card of each animal entered.
3. Entries that have not complied with rule 1 and rule 2 will not be eligible to show, receive premium monies or earn points in the Association's register of renown.
4. Animals eligible to be shown in group classes must be entered and shown in individual classes.
5. Entries will be listed numerically according to age, oldest first, in catalogs and judging schedules. Include animal identification number (number brand) as a part of identification. When entering the arena for judging, the handlers will line up cattle numerically.
6. Judges will be allowed to comment on placings in selected classes when conditions permit.
7. Each animal will be presented in the show ring in its natural conformation and structure without alteration or modification. Alteration or modification shall be defined to include any surgical or circulatory constriction including banding or other appearance change, save only branding, tattooing, foot trimming or dehorning. Injections of foreign substances for cosmetic purposes shall be prohibited. If to the satisfaction of the ABBA's staff, officers, executive committee, or board of directors any animal has had its natural conformation and structure altered; then said animal shall be ruled ineligible to compete until such time the executive committee and owner(s) have reviewed the case.
8. In cases where families, companies, corporations, etc., are operated as a unit under the same management, but also have cattle registered in the name of the individual partners, said cattle, even though bearing a different ownership brand, are eligible to be shown in competition under the firm name provided they have not been, and will not be, shown in the name of the individuals.
9. For females being shown in the three oldest classes (*females calved September 1, 2020 – August 31, 2021), the exhibitor must have a certificate of pregnancy issued by a licensed veterinarian to be presented to show officials at

time of check-in or registration paper check. The show reserves the right to perform pregnancy determination by palpation for females in the above classes at any given ABBA approved show if an official protest has been filed.

Females exhibited in the last class **MUST** have a calf at side. The only exemption from this rule will be cows that have already weaned a calf and a registration certificate of the calf **MUST** be presented to the judge.

10. **All bulls will be shown with a nose ring or nose restraint with lead attached.** For bulls being shown in the oldest class, the exhibitor must have a certificate issued by a licensed veterinarian stating the bull has produced viable semen. The certificate must be available for inspection by the judge on request.
11. This deals with the produce of dam classes and the get-of-sire class:
 - a. Embryo produce of dam: Two (2) animals from the above classes produced by one (1) dam by embryo transfer, either or both sexes may be represented. No ownership required.
 - b. Natural produce of dam: Two (2) natural born animals produced by one (1) dam from the above classes, either or both sexes may be represented. No ownership required.
 - c. Get-of-Sire: Four (4) animals from at least two (2) dams by one sire from the above individual classes, both sexes represented. No ownership required.
12. No exhibitor shall be permitted to show more than one (1) produce or embryo-produce of dam per dam.
13. Cows that are exhibited with calves at side must be in a lactating stage. Calves must be shown and exhibited with their dams and said calves must not exceed 240 days of age on day of judging. The ring steward will inform the judge which cows whose calves are ineligible to show by this rule.
14. Cattle will not be allowed to show if their switches have been balled or glitter applied to their skin.
15. The intent of the ABBA in shows that exhibit a large number of cattle is to divide the cattle into separate red and grey divisions.
 - a. If so, the following procedure will apply. All grey cattle and solid black cattle will show grey. Red, black, and white speckled or red and white speckled cattle will show red. Cattle with questionable color pigmentation may be entered in the color division the breeder selects, however, said cattle are subject to inspection by a three (3) member ABBA committee. If the color committee disagrees with the breeder, the pedigree and color of said animal will then be used to aid in the final determination. In those cases where questionable colored cattle possess both red and grey breeding, then the color committee will make the final determination. The decision of the color committee is final.
 - b. Once animals have been classified, they will remain in that classification unless they were young at the time of classification and it is apparent that they have changed their color.
 - c. In the get-of-sire and produce-of-dam classes, breeders will not be allowed to show cattle of mixed color. They will be entered as to the color division they are assigned by the color committee.
 - d. At split shows where the color committee is not present, a staff member with two (2) ABBA directors will clarify questionable colored cattle for that particular show. The color committee will do the final classification.
18. The owner on record of any registered animal entered in an ABBA approved show and/or his/her agent, exhibitor, fitter, handler and/or representative releases ABBA and its representatives from any and all liability that the seller/owner might claim as a result of injury of any kind sustained before, during or after handling cattle for any ABBA board approved activity.
19. For shows to remain approved point shows by ABBA, they must maintain a 40 head average for the previous two (2) years.
20. The official ABBA rules and procedures governing showing and exhibiting of registered Brahman cattle supersede any rules printed in any show catalog.
21. In an attempt to ensure that all animals receive an equal evaluation at the national and international shows, classes with more than 30 entries, may at the discretion of the show management and/or ABBA officials be split by age as evenly as possible.

3. All calves exhibited at the side of the female must be registered with the IBBA and meet all rules required for show eligibility and inspections of exhibits (refer to Rule 9.a). The registration prefix of the dam determines the classification of the pair.
4. Animals eligible to be shown in group classes must be entered and shown in respective individual classes. Cows exhibited in the cow/calf classes are not eligible for the group classes. ***Cows exhibited in the cow/calf classes are not eligible for the group classes.**

6. Any animal upon check in which does not have a legible tattoo or brand corresponding to its registration certificate is ineligible to show. An animal may be tattooed immediately at a show for reinspection.

Physical Inspection and Eligibility

7. Prior to check-in, heads of exhibited animals must be clipped of all hair, including topknots and be free of scurs and/or slick spots. Animals not in compliance at check in will be required to comply before check-in is complete, or they will not be allowed to show.

The animals are eligible for inspection at future shows.
10. No animal may be shown that has been pumped with any amount of liquid at any time once the animal enters the grounds of a show. The official show veterinarian may administer liquids orally, if so needed, without disqualifying animal(s) from exhibition. Overall Senior Champion**Theron Jones Memorial Award:**

Is presented in recognition and remembrance of Theron Jones to the 4-H or FFA member whose show animal is selected as the Overall Champion Female. Theron Jones exhibited at the Oklahoma State Fair every year from 1936 with a barrow to 2000 with his Jerseys. Theron bought his first Jerseys in 1943 and exhibited them locally and nationally through 2000. He began teaching agriculture education at Vanoss, Oklahoma in 1945, moved to Tuttle in 1948 and remained there until retirement, to continue teaching on his farm and conducting tours for thousands of Oklahoma City children. These tours earned him a feature article in Orbit magazine. Jones was a friend to many and grandpa to the hundreds of children he helped through the years. In addition to teaching, Jones was also dedicated to service, holding the office of president, at one time or another, in the following organizations: Grady County Fair Board, Tuttle Lions Club, Oklahoma Purebred Dairy Cattle Association, Oklahoma Jersey Cattle Association and Sooner State Dairy Show. He also served as an Oklahoma State Fair Dairy Superintendent for 30-plus years, an elder in the Tuttle Church of Christ and on the executive board of the Oklahoma DHIA. The Overall Champion Junior Show Award, sponsored by the friends of Theron Jones, is given annually.

The Oklahoma State Fair will present a plaque and \$100 to the Overall Senior Champion exhibitor.

Overall Senior Reserve Champion**Ernest R. Berousek Memorial Award:**

Is presented in recognition and remembrance of Ernest Berousek, PhD to the 4-H or FFA member whose show animal is selected as Reserve Overall Champion Female. Ernest Berousek was a lifelong Guernsey enthusiast, supporter of the Oklahoma dairy industry and youth activities. He purchased his first dairy heifer in 1934, from the E.K. Gaylord Farm. The next year he purchased two more heifers and with his brother Otto, this was the beginning of building the nationally known, Lily Lane Guernsey Herd. Ernie continued his education, graduating from Oklahoma A and M, while working at the college dairy earning money for his college education. He went on and earned his master's degree from the University of MO and a PhD in Dairy Breeding. During his lifetime, he was awarded "The Pioneer Award" from the National Dairy Shire and "The Master Breeder Award" from the American Guernsey Association. Ernie passed away in 2010 at the age of 92 and he still owned his Guernseys at his passing.

The Oklahoma State Fair will provide a \$75 premium to the Overall Senior Reserve Champion exhibitor.

Overall Senior Champion

Walter Bloom Memorial Award:

This award is presented in honor of Walter Bloom, an individual who dedicated his entire life to the dairy industry. Walter's first FFA project was a Guernsey heifer purchased from Charles Griggs. His work in the industry started at Twincreek Jerseys in Tuttle, Oklahoma, then to Brentwood Jersey in Orland, California. From there, he went to High Lawn Farm in Lee, Massachusetts, eventually coming "home" to work at Braum's, where he stayed until his last position with Coba/Select Sires. Walter served as a longtime volunteer and Dairy Superintendent at the Oklahoma State Fair.

The Oklahoma State Fair will present an individual plaque to the exhibitor of the Overall Senior Champion and a premium of \$200.

Overall Senior Reserve Champion

Don and Shirley Head Award:

This award is presented in honor of the premier showman and breeders of Brown Swiss cattle in the state of Oklahoma. Don and Shirley's Head's crest prefix is recognized for outstanding show cattle. Both have had the opportunity to serve on national committees, such as national youth fun auction and national type committee. Don's ability as a cowman extraordinaire has been utilized by the National Brown Swiss Association as the national show judge in Peru, Columbia, and Ecuador. Don and Shirley have held offices at the Oklahoma Brown Swiss Association (OBSA) and the Purebred Dairy Cattle Association of: president, vice president and secretary. Their friends, family and the OBSA have made this award possible for their leadership and hard work to be an encouragement to other exhibitors at the Oklahoma State Fair.

The Oklahoma State Fair will present an individual plaque to the exhibitor of the Overall Senior Reserve Champion and a premium of \$100.

Overall Junior Champion

Genieve Hall Memorial Award:

This award is presented in recognition of Genieve Hall for her outstanding contribution to the Ayrshire breed in Oklahoma. Hall and her husband, Gene, first introduced Ayrshires to their herd in 1953. Hall worked alongside Gene, helping in every aspect of the dairy farm; however, her hand at raising calves and heifers proved to be an invaluable part of their success. Many of the cattle she raised went on to show at the state and national level. With numerous Champion and All-American awards won, her contribution to the family farm and the Ayrshire breed will live on for many years to come. The Oklahoma State Fair was always her favorite show, and this award allows her memory to live on with future exhibitors.

The Oklahoma State Fair will present an individual plaque to the exhibitor of the Overall Junior Champion and a premium of \$100.
